

NSMS inviterer til:

Det 16. norske seminar i massespektrometri 22. – 25. januar 2017  
Quality hotel & resort Hafjell

**Dr Séverine Gosciny,**  
Scientific Institute of  
Public Health, Brussels,  
Belgium

*«Hacking the analysis of  
small molecules with Ion  
Mobility»*

**Dr Virginie Brun, CEA,**  
Grenoble, France

*«Next-generation blood  
biomarkers for acute liver  
injury: in silico discovery and  
proteomics quantification»*

**Dr Christian Janfelt,**  
University of Copenhagen,  
Denmark

*«Mass spectrometry imaging  
of drugs, metabolites and  
natural products»*

**Dr Armin Wisthaler,**  
University of Oslo

*«On-line chemical analysis  
of submicron particulate  
organic matter by PTR-MS»*

**Dr. Christer Malm, Umeå**  
University, Sweden

*«The long road to clean  
sports»*

**Dr Åse Marit Leere Øiestad,**  
Folkehelseinstituttet, Oslo

*«Determination of new  
psychoactive substances with  
MS»*

**Dr Carsten Hopf, Professor of Drug Discovery,**  
Department of Biotechnology  
Mannheim University of Applied Sciences

*«Pharmacology applications of MALDI MS  
imaging and intact cell biotyping»*

Meldt deg på før 1. november og vær med i trekning  
av en iPad Mini:
